

*In Good Hands Cat Care*

## **Boarding Information**

**Reservations in advance** are required. Please call or Email as far in advance as possible, especially if you are requesting a holiday. We will send a confirmation card to you, so please provide your mail/Email address.

Before you arrive, be sure to call at least a day ahead so that we know when to expect you. For your cat's safety, please **transport him in a sturdy carrier**, as new surroundings may frighten him.

Please **bring your vet records** including vaccination history and a spay/neuter certification. Please understand that we require this documentation for the protection of your cat and other guests.

Remember to bring your cat's **food and medication, enough for the entire stay**. If your cat uses a special type of litter (other than a clumping type), please bring that also. You may bring beds, dishes, toys or any "comfort" items you would like to leave with your cat.

Your cat **must be in good health** to check in. We have the right to refuse service if we notice any signs of contagious or serious health conditions. Please check your cat for signs of external parasites (fleas, ticks, ear mites, etc.), internal parasites (worms), respiratory distress, (**especially sneezing and coughing**), skin, ear, eye, urinary tract or dental infections. See your veterinarian for any necessary treatment prior to their stay. Please **do not vaccinate your cat within two weeks of boarding** in case of adverse reaction and to insure effective immunity. If your cat has a chronic, non-contagious condition, such as diabetes, please be sure his treatment/dosages have been stabilized.

We prefer that you apply a topical flea preventative such as Advantage prior to boarding even if yours is an indoor cat. If possible, please trim claws.

**Payment is required at time of pick-up**. We accept cash, check or money orders. Please make checks payable to: ***In Good Hands Cat Care***.
